As a doctor, CEREC® beta tester, educator and clinician, I value the importance of education as a driver of continuous change and the improvement of your practice to satisfy patient demands.

This is why I am proud to present advanced CEREC training at the Spear Campus. From CEREC software training in both chairside and applications, to using CEREC as a business tool and integrating CEREC and implants, we give you the knowledge and tools to fully and successfully integrate CEREC technology into your practice.

Our goal at cerecdoctors.com is to provide many different ways that clinicians can stay involved with the CEREC technology.

cerecdoctors.com is an online community that provides CEREC users an opportunity to stay current with all things CEREC from anywhere in the world. With a robust discussion forum and more than 1,500 clinical videos, cerecdoctors.com is the go-to resource when you need CEREC information NOW.

The cerecdoctors.com Academy was created to supplement the online community. In addition to full access to the website, Academy members will have practice management tools at their disposal to help with the business side of their practices. Additional opportunities will bring the best of the best in the CEREC community to present the latest techniques and research in CEREC technology.

With more than 30 CEREC Omnicams 1 and MC XL units on site and a world-class, second-to-none facility, we have every confidence that you will greatly benefit from the hands-on courses that are offered on campus. From the Rapid Integration course of Level 2 to learning about implants and abutments with the CEREC as well as multiple anteriors, we invite you to look at our course offerings.

We look forward to helping you both personally and professionally, and we hope to see you soon at the Spear Campus or as part of our online community.

Best regards,

Sameer Puri, D.D.S.

Become a cerecdoctors.com member
CEREC practitioners rely on cerecdoctors.com for instant answers, the latest CEREC news and developments, and connection to a supportive network of other CEREC users around the world.

**Premium Membership**
is for the CEREC doctor who wants access to:

- CEREC Software Tutorials and Update Videos
- Troubleshooting Videos
- Galileos Software Tutorial
- Update Videos
- CEREC Product Clinical and Surgical Videos (filmed on live patients)
- The ability to upload an RST file for evaluation
- Access to downloads in our Resources area

**Academy Membership**
is for the CEREC doctor who wants to:

- Build confidence, proficiency, practice, team and overall efficiencies practice-wide
- Access all of the Premium Membership benefits
- Earn online CE through monthly Webinars and through our Curriculum Series
- Attend a seminar at the Spear Campus in Scottsdale
- Utilize Team Training Videos on both cerecdoctors.com and Spear Online
- Access an expanded library of Patient Education Videos on Spear Online

**Mentor Membership**
is for the CEREC doctor who wants:

- Access to everything in Premium and Academy memberships
- To be a leader in the CEREC community
- To engage in opportunities to audit workshops and mentor courses, interact and engage with new CEREC users
- To be involved in beta testing software, and other products
- To have active presence on the discussion boards, in workshops, and seminars

**Membership Options**

- **Premium**
  - $995 PER YEAR
  - Includes: CEREC Software Tutorials and Update Videos, Troubleshooting Videos, Galileos Software Tutorial, Update Videos, CEREC Product Clinical and Surgical Videos (filmed on live patients), the ability to upload an RST file for evaluation, and access to downloads in our Resources area.

- **Academy**
  - $2,995 PER YEAR
  - Includes: All of the Premium Membership benefits plus access to all of the Premium Membership benefits, earn online CE through monthly Webinars and Curriculum Series, attend a seminar at the Spear Campus in Scottsdale, utilize Team Training Videos on both cerecdoctors.com and Spear Online, and access an expanded library of Patient Education Videos on Spear Online.

- **Mentor**
  - $3,995 PER YEAR (SOLD OUT)
  - Includes: Everything in Premium and Academy memberships plus the ability to have active presence on the discussion boards, in workshops, and seminars.

For more information, visit [cerecdoctors.com/membership-options](http://cerecdoctors.com/membership-options).
Premium Membership
For the CEREC doctor who wants access to:

- CEREC Software Tutorial and Update Videos
- Troubleshooting Videos
- Galileos Software Tutorials
- Update Videos
- CEREC Product Clinical and Surgical Videos (filmed on live patients)
- Ability to upload an RST file for evaluation
- Downloads in our Resources area
More than 2,000 videos, including:

**CEREC Software Update Videos**
Our faculty members are often beta testers for new software rollouts, making them very familiar with the updates as they are released. They produce detailed, brief and to-the-point videos on each new feature so you get up-to-speed quickly.

**CEREC Troubleshooting Videos**
Think of these troubleshooting videos as an enhanced FAQ section for your CEREC machine. When we experience a challenge ourselves, receive numerous questions about a particular subject or discover a new way of doing something and want to share it with you, we’ll make a video.

**Galileos Software Videos**
An extensive collection of videos dedicated to the Galileos software

**Galileos Troubleshooting Videos**
Videos to help you use the Galileos and navigate software challenges.

**CEREC Material Videos**
Dedicated to materials that can be milled by the CEREC milling unit, plus bonding and preparation concepts

**CEREC Product Videos**
Videos that explore, review or provide a tutorial for any type of product that you might use in your CEREC practice

**CEREC Clinical Videos**
CEREC procedures filmed on a live patient

**Galileos Surgical Videos**
Lessons focusing on procedures utilizing the Galileos on a live patient

**Dedicated CEREC Downloads**
Documents that support all facets of your CEREC practice: PDFs, videos, RST files, keyboard shortcuts, parameters, service pack descriptions and more

**Discussion Boards**
Your resource for questions, advice, case feedback and anything else you’d like to talk to your peers about. Start a new thread to find quick answers or participate in other threads. Utilize the robust search feature and subscribe to topics you want to follow.

**Annual Membership Certificate**
Thank you for being one of us. We’ll send you a certificate each year to celebrate your membership.
Academy Membership benefits include:

**CEREC EDUCATION**
- 1,500+ CEREC Training Videos including software, clinical application, team training and more
- Discussion Boards for answers to virtually every CEREC challenge you encounter – plus the opportunity to share your expertise with your peers
- Case Analysis uploads for instant review by the cerecdoctors.com community
- Downloads: Materials studies, recommended products, TiBase order forms and more
- Product Reviews keep you updated with the materials available to create CEREC restorations and in-depth reviews to help you in your daily practice
- Online Continuum: Online education provides a topic-specific, CE-eligible series of weekly courses

**TEAM TRAINING**
Behind every great CEREC doctor is a great CEREC team. Our resources empower your staff for greater efficiency, proficiency and a stronger practice.
- Staff Training Videos through Spear Online
- CEREC Training for Assistants
- Eaglesoft Software Training
- Website access for up to 10 members of your team
- Assign and track videos for your team to watch

**WEBINARS**
Hosted by CEREC experts and respected industry leaders, these engaging webinars* focus on tools to build your CEREC practice and your team. Topics include software updates and the latest and greatest materials and clinical techniques. Membership includes access to complete webinar archive for you and your team.

Webinar Archive:
- Optimization Procedures for CAD/CAM Restorations
- Updates for 2015 IDS and Other CEREC Happenings
- Introduction to the New CEREC Ortho Software
- SIDEXIS 4 – The Future of Radiographic Software

*Now eligible for CE

**MARKETING TOOLS**
cerecdoctors.com helps you market your CEREC practice with resources that show patients your commitment to continued learning and exceptional patient care.
- 3-D Patient Education Videos
- Embeddable cerecdoctors.com logos for practice website marketing
- Printable CEREC brochures
- Case Photos showing treatment options
- Membership Certificate

PLUS! Your practice featured on onevisitdentist.net
- This valuable search-by-state website tells potential patients you’ve got the technology to treat them in a single appointment

**SEMINARS**
Choose from among two cerecdoctors.com seminars (one live-patient option) or one of many offered education topics:
- Treating Comprehensive and Esthetic Cases With a Digital Workflow
- Live Patient Implant Seminar With a Digital Workflow
- Implants — The Surgical/Restorative Connection
- The Art of Treatment Planning and Case Presentation
- Creating Esthetic Excellence
- Demystifying Occlusion
- Treating the Worn Dentition

**SPEAR ONLINE**
Increase your clinical skills, practice revenues and profitability with dentistry’s most trusted online education.
- Gain the confidence to take on bigger cases and learn to present cases that get accepted
- Master new skills to increase the hourly value for you AND your team
- Elevate your staff and free up your time by letting us train your team online
- Utilize videos specifically designed to help educate patients on conditions, procedures and the advantages of CAD/CAM dentistry

cerecdoctors.com  877.295.4276
Spear Online
Supplement cerecdoctors.com online learning with more than 1,300 CE-eligible Spear Online lessons spanning treatment planning, restorative, esthetics, implants, worn dentition and more. Boost your skills – and the skills of your team – and build a more powerful practice.

Patient Education
Your solution for greater patient engagement and communication – and increased case acceptance. This new feature of your Academy membership is available through Spear Online. These brief, patient-friendly animated videos communicate clinical conditions and treatment options. Share with the patient in the chair, email for home viewing or even embed into your website. Patients and team are engaged with a greater understanding during the treatment process.

Seminars
On-target. Challenging. Interactive. Seminars provide solid, fundamental concepts, systematic treatment planning and proven steps for achieving predictable clinical results. We have now combined the cerecdoctors.com Live Patient Seminar options with Spear Seminars, offering a total of seven seminars with multiple dates for your convenience.

Team Training
Team training is enhanced through access to Spear Online Staff Training and Team Meeting courses. cerecdoctors.com Team Training lessons for the CEREC machine, plus Eaglesoft training. Spear Online Staff Training enables you to assign courses and track individual progress through CE-eligible quizzes. Spear Online Team Meetings provide turnkey packages for a proficient, motivated and supportive team.

Assign Videos
Now you can assign videos to team members based on individual learning needs. Choose from hundreds of titles spanning imaging, software, esthetics, bonding and much more. You are also able to assign due dates and monitor progress.

Online Continuum
Online topic-specific education in a CE-eligible series of weekly courses

Ortho 1.1
Earn certification and get up and running on this new CEREC software release with our half-day course, valued at $500 (NOW included in Academy or Mentor Membership)
Mentor Membership
For the CEREC doctor who wants:

• Access to all Premium and Academy benefits
• To be a leader in the CEREC community
• To engage in opportunities to audit workshops and mentor courses
• To interact and engage with new CEREC users
• To be involved in beta testing software and other products

The cerecdoctors.com Mentor Group is a by-invitation-only consortium of the most dedicated minds in CAD/CAM dentistry. This exclusive opportunity, limited to a select group of members, offers like-minded CEREC doctors the opportunity to expand their knowledge, engage with peers and grow as clinicians by staying on the cutting edge of technology.

Mentor Group membership is currently on a wait list basis.
If you are interested in becoming a Mentor, contact us to be added to the list.

CEREC PATH TO CLINICAL EXCELLENCE
CEREC MASTERY – Rapid Integration into Your Practice

You’ve completed Patterson Basic Training and viewed the training videos on cerecdoctors.com. Now it’s time to expand your CEREC knowledge and learn how to make better use of the CEREC technology and software.

CEREC Mastery lays down the fundamentals for CEREC success so that you will be able to practice ideal occlusion with shorter, stress-free CEREC appointments. Level 2 gives you the skill set necessary to use the software to its fullest capabilities. You will get a thorough review of what it takes to make the CEREC process predictable and efficient. Recommended for new owners and those owners who are looking to build a solid foundation for all CEREC knowledge.

All cerecdoctors.com hands-on workshops are conducted on Omnicams utilizing the latest CEREC software.

Upon completion of this course, you will be able to:

- Understand the importance of Prep and Picture, keys to all CEREC success with both Omnicam and Bluecam
- Grasp the importance of proper preparations for all ceramic dentistry for predictable success
- Understand each design technique: Biogeneric Individual, Biogeneric Copy and Biogeneric Reference
- Know the secrets to Functional Beauty, how to create the best proposal possible combining Biogeneric Copy and Biogeneric Individual
- Become efficient with inventory and use of the CEREC blocks
- Design and mill multiple adjacent as well as opposing restorations
- Understand the importance of the Model Axis and other tools with both the Omnicam and Bluecam
- Fabricate chairside temporary bridges
- Understand the difference between fabricating provisional and permanent bridges
- Know how to contour and crystallize permanent e.max bridges
- Understand the Virtual Articulator function of the software, how to use it, and for what clinical situations
- Know the range of materials choices and their indications
- Know how to mix and match various design techniques, including Biogeneric Individual and Biogeneric Copy for the same patient
- Understand advanced techniques to increase the efficiency of your CEREC fabrications
- Know how to send your cases to the laboratory using CEREC Connect
- Manage multi-unit fixed partial denture cases with CEREC, from temporization to digital fabrication of the final restorations
- Manage multi-unit CEREC Connect cases
- Understand the bonding protocol and various types of cements available, from self-etching to total etch

Plus:

- Thorough parameter review
- Introduction to stain and glaze
- Complete materials review
- A comprehensive foundation of CEREC and CEREC Connect knowledge
- Clinical application of parameters
- Learn how to apply concepts learned to both Bluecam and Omnicam
- Thorough software review

Prerequisites:
Basic Training strongly recommended

Credits:
13 CE Credits
2 Days | Lecture and Hands-on

Day 1
Start time: 8:30 a.m.
Concludes: 4:30 p.m.

Day 2
Start time: 7:30 a.m.
Concludes: 3:30 p.m.

Location:
The Spear Campus
Scottsdale, Ariz.

Faculty:
Sameer Puri, D.D.S.
Mike Skramstad, D.D.S.
Mark Fleming, D.D.S.

Cost:
$2,500 Doctors
$900 Team Members
CEREC will produce highly esthetic implant restorations with perfect occlusion and contacts, whether you are treating a single tooth or complete quadrant. Fabricating chairside implant restorations opens an avenue to be more productive in one’s office whether you are temporizing an edentulous area for implants or fabricating the final restoration.

All cerecdoctors.com hands-on workshops are conducted on Omnicams utilizing the latest CEREC software. If you are using an earlier software version, please review these cerecdoctors.com videos: *Implants and Abutments* and *4.3 Improvements*.

Upon completion of this course, you will be able to:

- Understand the differences between the various blocks for fabricating provisional and permanent chairside abutments
- Fabricate chairside abutments for implants utilizing CEREC software
- Use CEREC to create temporary and permanent implant restorations
- Utilize CEREC to create and restore both screw-retained and cement-retained implant restorations
- Understand how different tools affect implant proposals and where and when to use them
- Understand the CEREC/Galileos connection and the integration between cone beam and CAD/CAM
- Create provisional and permanent Maryland bridges
- Understand file and image management as it relates to implant restorations fabricated with CEREC
- Create Maryland bridge temporary restorations for patients waiting for implant integration
- Fabricate custom healing abutments with CEREC

Plus:

- Introduction to restoring implants with CEREC
- Review the application of CAD/CAM and cone beam
- Different provisionalization techniques for implant dentistry with CEREC
- Thorough material review as it relates to CEREC and implants

Prerequisites:
Level 2 completion strongly encouraged

Many doctors don’t realize the full potential of their CEREC technology because they don’t use it to its full capacity. Some feel they can only use CEREC for posterior teeth, and consequently they lose out on the opportunities offered by anterior CAD/CAM dentistry. In fact, with CEREC you can achieve esthetic results equivalent to high-quality labs.

*Mastering Multiple Anterior and Posterior Restorations With CEREC* provides you with the tools necessary to complete any large anterior or posterior case with ease, positively impacting your productivity, clinical outcomes and patient care.

All cerecdoctors.com hands-on workshops are conducted on Omnicams utilizing the latest CEREC software.

**Upon completion of this course, you will be able to:**

- Master the art of color and shade selection
- Understand the differences between all CEREC blocks and when to use one block over another for a cosmetic result
- Prepare anterior teeth for optimal esthetics, and how preparation plays an integral role in your success
- Create a roadmap for staining and glazing success
- Design in Biogenic Individual, Biogenic Copy and Biogenic Reference, and when it is appropriate to use each in anterior situations
- Understand the principles of Smile Design and how to apply them in treatment planning and case presentations, and more importantly the final outcome of the case
- Do anterior cases same day, an indirect in two visits, and the advantages/disadvantages of each
- Contour anterior restorations for optimal esthetics
- Understand esthetically enhanced restorations milled from the CEREC system
- Understand how parameters affect anterior restorations
- Understand file and image management as it relates to the CEREC software
- Predictably treat multiple units with perfect occlusion and contacts
- Complete three posterior restorations in less than 90 minutes, using ideal form, symmetry and occlusion
- Esthetically stain and glaze restorations that rival lab esthetics

**Plus:**

- Understand the appropriate parameters that affect anterior teeth
- Easy and predictable multiple anterior cementation techniques
- Effective techniques to image large cases with the Omnicam and Bluecam
- Learn how to integrate the Smile Design module in the CEREC software

**Prerequisites:**
Level 3 completion strongly encouraged

**Credits:**
13 CE Credits
2 Days | Lecture and Hands-on

**Day 1**
Start time: 8:30 a.m.
Concludes: 4:30 p.m.

Scottsdale, Ariz.

**Faculty:**
Sameer Puri, D.D.S.
Mike Skramstad, D.D.S.

**Cost:**
$2,950 Doctors
$950 Team Members
This course will give you the experience to utilize the Sirona Cone Beam CT (Galileos or XG3D) for surgical planning of implants and may help you to understand the fundamentals of guided implant surgery. Intended for clinicians who are interested in, new to, or moderately experienced with implant therapy. This two-day lecture will take you from A to Z in all aspects of guided-implant planning using the Galileos/XG3D and the CEREC, as well as provide a complete understanding of all the different guided systems that are available to work with the CEREC and Galileos Integration protocol. Learn the basics of implant placement using the guided protocol, and the advantages and disadvantages of each surgical system.

In the demonstration portion on Day 2, students will watch a surgical case that imports the CEREC models into the Galileos software, and virtually places the implants in the ideal position. Participants will then view a fabrication of a surgical guide for implant placement and learn how to utilize this guide according to the guided surgery protocol. This will provide a thorough understanding of the integrated digital implant dentistry protocol, where accurate treatment planning provides a blueprint for the surgical phase, thereby rendering the final restorative phase predictable and ideal.

Upon completion of this course, you will be able to:

- Understand the fundamentals of CEREC and Galileos Integration
- Understand the basics of dental implant treatment planning, including the advantages of prosthetically driven treatment planning
- Understand the basics of guided surgery over current freehand techniques
- Explore all the fundamentals, differences, indications, and step-by-step directions for the various surgical guide options available within the CEREC-Galileos integration workflow
- Import prosthetic proposals designed in CEREC into Galileos Implant Software to be used for implant planning
- Learn to digitally treatment plan simple to complex dental implant cases
- Plan, design, and fabricate a chairside surgical guide with the CEREC Guide 2 solution
- Learn various guided surgery tips and tricks to ensure a predictable implementation
- Comprehend the steps involved from start to finish in planning, placing and restoring an implant using the guided protocol and CEREC

Mark Fleming, D.D.S.
Faculty, CAD/CAM Dentistry

Dr. Fleming is a faculty member in the CAD/CAM dentistry department at Spear. He has been a CEREC user since 2001, a beta tester for the CEREC software since 2004.

Dr. Fleming has spoken to several international groups on CEREC technology and has served on the board of an international academy which furthered the understanding and use of computerized technologies and machinable restorative materials in dentistry. He serves as a consultant to a variety of dental manufacturers helping in product evaluation and design. He is a basic and advanced trainer for Patterson Dental for CEREC technology and editor for cerecdoctors.com magazine.

Dr. Fleming, D.D.S. is a 1978 graduate of The Ohio State University College of Dentistry.

Mike Skramstad, D.D.S.
Faculty, CAD/CAM Dentistry

Dr. Skramstad is a member of the faculty in the CAD/CAM department at the Spear Campus and www.cerecdoctors.com. He performs all aspects of cosmetic, implant and family dentistry with a particular focus on esthetic and CAD/CAM computerized dentistry.

Dr. Skramstad is a basic and advanced trainer for Patterson Dental and has lectured internationally on digital dentistry and the CEREC restorative process. He works closely with Sirona’s engineering team to help with the development of CEREC hardware and software and is a product consultant for numerous dental companies. He was also voted one of Mpls/St. Paul Magazine’s “Top Dentists” multiple times by his peers.

Dr. Skramstad grew up in Marshall, Minn. and attended college at Purdue University, where he graduated with a Bachelor’s degree in genetics in 1996. He then returned to Minnesota and graduated from the University of Minnesota School of Dentistry in 2000.

Farhad E. Boltchi, D.M.D., M.S.
Faculty, CAD/CAM Dentistry

Dr. Boltchi is on faculty in the CAD/CAM department at the Spear Campus and runs the Cone Beam Integration Program for the CEREC course, CEREC and Galileos Integration in Surgical Implant Dentistry.

Dr. Boltchi received his dental degree from the Medical University of Hannover in Germany and a certificate in periodontics associated with a Master of Science degree in oral biology from Baylor College of Dentistry in Dallas. He is a clinical assistant professor in the graduate periodontics program at Baylor College of Dentistry, and also maintains a full-time private practice in periodontics and dental implants in Arlington. He has achieved board certification status with the American Board of Periodontology and is a fellow of the International Team for Implantology (ITI).

Cancellation Policy: After you have registered for a course, we consider your registration to be a firm commitment for you to attend. Last-minute participant substitutions are difficult to arrange, although we understand emergency situations may arise that will affect your attendance to programs offered by cerecdoctors.com/Spear Campus. We have established the following policy in case of course cancellation:

Written notice must be given for course cancellation. If cancellation is made more than 90 days before the program date, 50% of the tuition, less the non-refundable deposit, is eligible for refund, or 100% of the tuition is transferrable to another program/date. If cancellation is made within 60 to 90 days of the program date, 25% of the tuition is eligible for refund, less the non-refundable deposit, or 100% of the tuition is transferrable to another program/date. If cancellation is made within 60 days prior to the program date, the entire tuition is non-refundable and non-transferable. Any refunds issued within the guidelines of the cerecdoctors.com/Spear Campus cancellation policy will incur a 6% non-refundable fee. In addition, cerecdoctors.com/Spear Campus reserves the right to cancel or reschedule events as necessary. In such a case, tuition or deposit may be refunded in full or transferred to a future seminar or course. In no event shall cerecdoctors.com/Spear Campus be liable for any cancellation or change penalties assessed by an airline or hotel as a result of course date changes or cancellations.
